

## **PROPAGATION OF ULTRA-HIGH ENERGY COSMIC RAYS IN THE GALAXY**

**Jaime Alvarez-Muñiz**, Ralph Engel and Todor Stanev

Bartol Research Institute, University of Delaware, Newark, DE 19716, USA.

We follow the trajectories of ultra-high energy cosmic rays backwards from the field of view of current and future air shower detectors in the regular and random galactic magnetic fields. The time spent by these particles in the galactic plane indicates the possible locations of their acceleration sites, assuming that the detected cosmic rays are of galactic origin.
